

PRELIMINARY

SECTION LOOKING NORTHEAST

EXPLANATION

B-1
|
|

Exploratory Boring by Joyce Associates, November 2008

Notes:

¹ Surface Elevations based on photogrammetric survey performed by HJW GeoSpatial, Inc. photos dated 8-24-2003. The above profile represents a generalized soil cross section interpreted from widely spaced borings. Soil deposits may vary in type, strength, and other important properties between points of exploration.
